RANGE
ROVER

Range Rover. More than 40 years' expertise creating outstanding all-terrain vehicles. Each one with its own unique character and an extraordinary ability to take on some of the toughest conditions – on or off-road. Ready to travel almost anywhere and to take on practically anything. The 2011 Model Year collection represents the finest, most comprehensive range of Range Rover vehicles ever.

The Range Rover

The ultimate in luxury, capability and performance.
The ultimate in refinement. The ultimate four-wheel drive vehicle

Iconic design expressed through unique exterior styling. A front grille and front headlamps featuring the Range Rover signature 'concentric circle' design. A 'three-stripe' LED theme on indicators and all-LED rear lamps, continued through the side vents on all models.

THE RANGE ROVER

The Range Rover stands alone, above all others as the flagship, as the ultimate, as the supreme luxury four-wheel drive vehicle. It stands enhanced, further extending its leadership with the world's finest interior and increases its capability, performance and economy yet again. It is peerless. The most advanced, most powerful, most complete luxury four-wheel drive vehicle is the Range Rover.

Introducing the new LR-TDV8's 4.4 litres of turbocharged diesel power. The new LR-TDV8 Diesel 4.4 litre engine provides more power, new levels of refinement and better fuel economy for the most accomplished, most capable, luxury four-wheel drive vehicle in the world. This is the Range Rover's most powerful ever diesel engine. Now with a new, faster eight-speed automatic transmission incorporating Drive Select with Paddle Shift as standard. It joins the much acclaimed LR-V8 Supercharged as part of the all-V8 Range Rover line-up.

The command driving position. The confidence and the security to take advantage of the Range Rover's capability on-road and off-road because the driver is perfectly placed to interact with the vehicle and the surrounding environment in a wide range of conditions. The command driving position brings a sense of control. It offers all-round visibility and a familiar sense of wellbeing, security and composure with intuitive control of all key vehicle functions. One glance at the virtual instrument panel reveals the very latest Thin Film Transistor (TFT)-LCD technology providing a revolution in the clarity of driver information. There is the subtlest mood lighting to enhance the interior ambience at night.

Unsurpassed control and driveability. The unique Terrain Response® system provides sublime handling over all surfaces and works alongside Adaptive Dynamics. Adaptive Dynamics not only provides the best ever Range Rover experience over rough roads by fully utilising the vehicle's long suspension travel to absorb potholes or ruts, it also provides enhanced control at higher speeds while cornering or braking. Adaptive Dynamics takes the Range Rover's ride and handling to a new level. It works by predicting the response to driver input, and monitors contact with the surface of the road 500 times a second, allowing the system to help mitigate any excessive movement, rather than a conventional system which reacts after the vehicle has already moved. From the extremely rough surface to the smoothest road, this delivers significant off-road and on-road benefits.

Effortless driving in demanding conditions. In addition to cruise control, which is fitted as standard, Adaptive Cruise Control (ACC) is also available. This latest generation ACC system uses 12 beams to scan the road ahead ten times every second and provides earlier identification of vehicles moving into the path of the Range Rover. One of the most advanced systems on the market, it offers more progressive deceleration and resets more accurately. It is also better able to identify smaller road users, such as motorcycles, against larger vehicles and trucks.

The Touch-screen with dual view technology uses 1,280 x 480 resolution, patented Parallax Barrier technology to display alternative columns of pixels to left and right-hand views, allowing driver and passenger to see different images.

Breakthrough technology appears in the form of the advanced Surround Camera System, which gives the driver five different views from points around the exterior of the vehicle. Another cutting edge technology is the introduction of Tow Assist, a next-generation reversing aid designed to predict the rearward trajectory of both vehicle and trailer.

-  Mud & Ruts
-  Sand
-  Rock Crawl

Design that is truly masterful. Renowned for the world's finest luxury interior, the Range Rover reaches even higher levels of luxury and elegance. The finest combination of veneers and leather.

As many as ten of the finest leather hides* cocoon all occupants in the Range Rover. A full leather headlining and a full leather covering for the facia, as well as glove box lids, door casings, centre vents and the driver's knee airbag panel are available depending on the model.

The softest leathers from only the very highest quality hides. Hides that retain the leather's natural grain. Hides designed to improve with use and age.

A new, suede Alston headlining, available in three colours, is an optional feature. Please contact your Land Rover Dealer for further details.

*Bovine sourced

Autobiography

Autobiography is the ultimate expression of craftsmanship and exclusiveness for the interior of the Range Rover. Enveloping and cocooning driver and passengers in the finest leather, it is the definitive demonstration of the Range Rover's unique luxury.

Bespoke. The word's origins are in London's Savile Row, where cloth put aside on behalf of clients was said to 'be spoken for'.

Complementing the semi-aniline leather seats is full leather covering for the facia, glove box lids, around the centre vents, door casings and behind the steering wheel. Even the driver's knee airbag panel is full leather.

Premium carpet mats with 2,050 gr/ms twist pile and aluminium corner protectors.

A full leather headlining swathes occupants in unparalleled opulence.

Autobiography leather is examined by hand. Fitted by hand. It's the personal touch.

RANGE ROVER SPORT

It is the definitive luxury sports tourer. Defined by exceptional on-road dynamics, class-leading comfort and outstanding breadth of capability. Muscular body styling, a sumptuous interior and the choice of three powerful, exceptionally refined engines. It is Range Rover Sport. Alluring. Ready, poised in anticipation of the drive ahead. Range Rover Sport is assertive, with a unique identity and a low-to-the-road, contemporary appearance. Range Rover Sport, with its muscular, sharp attitude looks like it's moving, even when it's standing still.

Stylish and bold. Range Rover Sport features Range Rover signature 'concentric circle' headlamps with LED technology and a 'twin stripe' design on grilles, vents and lights for charisma and a truly purposeful line. Rear light clusters also boast LED technology and reinforce Range Rover Sport distinctiveness. And now three new exterior colours add even more appeal. Range Rover Sport.

The Terrain Response® system gives access to over 60 years of Land Rover four-wheel drive expertise and state-of-the-art dynamic technology. Terrain Response® is your own driving expert with you in the vehicle at all times. Simply turn the conveniently positioned dial to the appropriate icon and Range Rover Sport's engine, transmission, suspension and traction settings reconfigure for optimum driveability in all conditions. The Terrain Response® system includes a sixth position on the dial, Dynamic Program (standard on Supercharged and optional on LR-TDV6 models). This increases body control and gives a more driver-focused orientation to the vehicle's settings by adjusting the Adaptive Dynamics settings.

Power. Performance. Three utterly refined engines – LR-V8 Supercharged, LR-V8 Petrol and LR-TDV6 Advanced Sequential Turbo Diesel – all with latest-generation six-speed automatic transmissions with CommandShift®.

Xenon Adaptive Front Lighting, with LED technology and Range Rover signature 'concentric circle' design, give Range Rover Sport a striking headlamp identity. Automatic headlamps with high beam assist detect vehicle headlamps/tail lamps and dip the high beam until the light source is out of range. To cope with the demands of sports tourer performance, every Range Rover Sport has brakes that are engineered for maximum stopping power and to enhance the driver experience. The LR-V8 Supercharged has high-performance brakes developed in association with Brembo™.

Brembo is a registered trademark of Freni Brembo S.p.A

The superb interior provides premium levels of craftsmanship and comfort. Tactile materials create a superior ambience of quality and prestige. Step inside Range Rover Sport and step up a class. The unique cockpit driving position puts the centre console and controls all within easy reach, while the instrument panel and instrument cluster all place the emphasis on a sublime driving experience.

All key controls are close to hand and information is easy to read thanks to the centrepiece of driver information, the new instrument panel with its five inch Thin Film Transistor (TFT)-LCD technology. It shows key vehicle information, for instance gear selection status, and safety data, such as engine temperature, as well as displaying highlights from the Infotainment screen. Importantly, the display can be operated using a simple menu system controlled by the five-way navigation toggle switches on the steering wheel.

A choice of In-Car Entertainment options are available including **harman/kardon**[®] LOGIC7[®] systems incorporating premium audio quality.

RANGE ROVER ACCESSORIES

No matter which vehicle you choose from the Range Rover line-ups, countless practical features form the standard specification. However, because all owners enjoy their own individual lifestyles and pursuits, you'll find the range of Land Rover Approved Accessories will help bring even more style and practicality to your vehicle, as well as improving its capability still further. Importantly, these specialist accessories are designed to be an integral part of the vehicle and can be added at any stage during its life – not just when it is new.

V8 SUPERCHARGED	21.8 (13.0)	10.7 (26.3)	14.9 (19.0)	348

Fuel consumption figures: The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle with which this information may be supplied. Vehicles are not individually tested and there are inevitable differences between individual vehicles of the same model. The vehicle may also incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption.

THE RANGE ROVER

ENGINE OPTIONS

- 4.4 litre TDV8 twin sequential turbocharged and intercooled diesel engine
- 5.0 litre V8 naturally aspirated petrol engine
- 5.0 litre V8 Supercharged engine.

STANDARD FEATURES

ENGINE & TRANSMISSION

- Eight or Six speed adaptive automatic transmission featuring Drive Select or CommandShift®
- Paddle Shift
- Misfuel protection device.

SUSPENSION & DRIVING DYNAMICS

- Full-time intelligent four-wheel drive
- Terrain Response®
- Fully independent Electronic Air Suspension with variable ride height
- Four-channel all-terrain Anti-lock Braking System (ABS) with all round ventilated disc brakes
- Emergency Brake Assist (EBA)
- Electronic Traction Control (ETC)
- Cornering Brake Control (CBC)
- Dynamic Stability Control (DSC) with Trailer Stability Assist (TSA)
- Roll Stability Control (RSC)
- Hill Descent Control (HDC) feat. Hill Start Assist and Gradient Release Control
- Centre electronically controllable differential.

WHEELS

- Alloy wheels
- Locking wheel nuts
- Reduced size space saver spare wheel.

EXTERIOR LIGHTING

- Xenon headlamps
- Headlamp power wash
- LED front and rear signature lights.

EXTERIOR FEATURES

- Jupiter front grille and side vents
- Range Rover sill tread plate.

COMFORT & CONVENIENCE

- Eight-way driver/passenger electric seats with manual lumbar adjustment
- Memory function - driver's seat, exterior mirrors and steering wheel
- Heated front and rear seats
- Oxford leather seats
- Cambridge leather facia topper
- Leather covered steering wheel and gear knob
- Wood veneer door inserts and centre console
- Power Assisted Steering (PAS)
- Driver and front passenger forward airbags
- Side and head curtain airbags (1st & 2nd row)
- Perimetric alarm system with tilt sensor
- Electric heated powerfold door mirrors with memory function
- Heated rear windscreen
- Electric Park Brake (EPB)
- Keyless push button start
- Electric steering column lock
- Steering wheel mounted audio controls
- Park Distance Control (PDC)
- Rear view camera with parking aid
- Rain sensing wipers and automatic lights
- Acoustic glass
- Auto dimming interior rear view mirror
- Cruise control
- Side impact beams on all doors
- Automatic climate control
- Puddle and footwell lamps.

INFORMATION, COMMUNICATION & AUDIO

- Touch-screen hard disc drive navigation system including 4x4 interface and voice control
- Bluetooth® phone system
- **harman/kardon®** audio system with single disc in-dash CD player and 11 speaker surround sound system
- Auxiliary MP3 and USB audio connectivity
- 12.3 inch TFT virtual instrument panel.

RANGE ROVER SPORT

ENGINE OPTIONS

- 3.0 litre TDV6 advanced sequential turbocharged diesel engine
- 5.0 litre V8 naturally aspirated petrol engine
- 5.0 litre V8 Supercharged petrol engine.

STANDARD FEATURES

ENGINE & TRANSMISSION

- Six-speed adaptive automatic transmission featuring CommandShift®
- Paddle Shift
- Misfuel protection device.

SUSPENSION & DRIVING DYNAMICS

- Full-time intelligent four-wheel drive
